it would seem to relate to excessive uploading of the same data and creating multiple accounts in order to do so and in some cases adding an excessive number of subject tags that skews the search engine results.

there are now ~5,000 items added back.

in the future please:

1. only upload files once.
2. upload to the proper collection. for example, be sure audio items go to Community Audio (opensource\_audio)
3. keep descriptions and subject tags short

thank you.
